## INFANTS SCHEDULE

*Ages 6 Weeks to 8 Months*

Our infants are on their own schedule. Teachers work with each child's parents to keep the baby's schedule consistent.

Teachers do encourage "teachable moments" throughout the day. They sing songs, read books, play baby games, and more, on an individual basis.

Teachers also help babies have a variety of different interactions during the day such as swinging, jumping in the exer-saucer, "tummy time", and other developmentally appropriate activities.
